I am a final-year Computer Science student who has recently completed an internship at FPT IS. I am passionate about software development and eager to find job opportunities as a Java Developer. With hands-on experience in backend development using Java Spring Boot and frontend development with React.js and Ant Design, I have gained practical skills in building web applications and working with SQL Server. I am a fast learner, highly motivated, and always eager to expand my knowledge and improve my skills. I am looking forward to contributing to a dynamic team and growing as a professional developer.

SKILLS

Frameworks & Libraries: Spring Framework, ReactJS, Ant Design

Databases: MS SQL Server

Programming Languages: Java, HTML, CSS, JavaScript, Type Script

Source and version control: Git, GitHub, GitLab

Development Practices: Microservices Architecture

WORK EXPERIENCE

10-2024
- 2-2025

HCMA Project: Java Developer

FPT IS, Cau Glay, Ha Noi

Project Description: The project aims to apply advanced technologies to improve the efficiency of management, administration and teaching, while ensuring information safety and security throughout the Academy system.

Team Size: 30

Responsibility:

- Analyze requirements, estimate tasks, plan, and develop application features.
- Ensure quality control and manage bugs.
- Develop and maintain both front-end and back-end components of web applications based on requirements.

Technologies: Java, Spring boot, MS SQL Server, Git, ReactJS, Ant design

EDUCATION

Expected in 7-
2025

Hanoi University of Industry

Computer Science

- GPA 3.22

CERTIFICATIONS

9-2024

TOEIC 860
